Reasons For Allowance

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The basis for the allowability is :

Claims 1-9 recite the combination a semiconductor device having a DRAM region and a high-speed CMOS logic region that are co-resident with each other, wherein a pair of gate electrodes of a N-type sense amplifier transistor and a pair of gate electrodes of a P-type sense amplifier transistor constituting a CMOS sense amplifier of the DRAM are disposed respectively in one active region in parallel to each other in the same direction as that of bit lines, and a pair of adjacent N-type sense amplifier transistors and a pair of adjacent P-type sense amplifier transistors are isolated by shallow trench isolation (STI) regions or field shield electrodes are disposed between the pair of adjacent N-type sense amplifier transistors and between the pair of adjacent P-type sense amplifier transistors so as to be parallel to the pair of gate electrodes of each of the sense amplifier transistors.

None of the art of record teaches nor suggests to combine above cited limitations in the claimed invention as a whole.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
